## SUMMARY

Full Stack Developer with 1+ year of experience building scalable SaaS applications, analytics dashboards, and RESTful APIs using React.js, Node.js, Express.js, SQL, Elasticsearch, and Cube.js. Experienced in developing production-grade analytics solutions, search systems, and responsive web applications in Agile environments.

## EDUCATION

**Bachelor of Technology in Computer Science**

*Seshadri Rao Gudlavalleru Engineering College*

Nov 2021 – Apr 2025

*Gudlavalleru, India*

**Board of Intermediate Education**

*Sri Chaitanya Junior College*

Jul 2019 – Apr 2021

*Machilipatnam, India*

## TECHNICAL SKILLS

**Languages:** JavaScript, Python

**Frontend:** React.js, HTML5, CSS3, Bootstrap, React Router

**Backend:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, SQL, Elasticsearch

**Analytics:** Cube.js, Kibana

**Authentication:** JWT, Cookie-Based Authentication

**Tools:** Git, GitHub

## WORK EXPERIENCE

**Full Stack Developer**

*Juware*

Aug 2025 – Present

*Gannavaram*

- Developed **Threat Insights**, a production analytics module providing real-time threat intelligence, KPI dashboards, category analytics, and geospatial visualizations.
- Designed Elasticsearch schemas, nested mappings, and KQL/DSL queries to support scalable threat data search and aggregation.
- Built RESTful APIs using Node.js and Express.js and integrated Cube.js semantic models and pre-aggregations to improve analytical query performance.
- Developed responsive React.js dashboards featuring charts, heatmaps, dynamic filtering, and date-range analytics while collaborating in Agile sprint cycles.

**MERN Stack Developer Intern**

*SmartInterns*

May 2024 – Jul 2024

*Remote*

- Built the BookStore platform using React.js, Node.js, and SQL, improving page load performance by 30%.
- Developed REST APIs, optimized database queries, and implemented authentication mechanisms to improve security and application reliability.

## PROJECTS

**NxtWatch** | *React.js, Node.js, Express.js*

2024

- Built a YouTube-inspired full-stack video platform using React.js, Node.js, and Express.js with client-side routing using React Router.
- Implemented responsive UI, authentication workflows, reusable components, and dark/light theme support using React Context.
- Developed Trending, Gaming, and Saved Videos modules with centralized state management and backend API integration.

## CERTIFICATIONS

Certified in HTML5, CSS3, JavaScript, Node.js, SQL, React.js, Git & GitHub – **NxtWave**
