SUMMARY

Backend-focused Full Stack Developer with 1+ year of experience building scalable REST APIs, database-driven applications, and production analytics systems. Proficient in Java (OOP concepts), JavaScript, Node.js, Express.js, SQL, and Git. Hands-on experience with RESTful web services, database schema design, and Agile development workflows. Eager to apply backend engineering skills in a Java and Spring Boot environment.

TECHNICAL SKILLS

Languages: Java (OOP, Core Concepts), JavaScript, Python, SQL

Backend: Node.js, Express.js, REST APIs, Web Services

Frontend: React.js, HTML5, CSS3, Bootstrap

Databases: MySQL, SQL, MongoDB, Elasticsearch

Frameworks & Tools: Spring Boot (learning), Cube.js, Kibana, JWT, Git, GitHub

WORK EXPERIENCE

Full Stack Developer

Aug 2025 – Present

Juware

Gannavaram, India

- Designed and developed RESTful APIs using Node.js and Express.js for production-grade analytics modules, following OOP principles and clean code practices.
- Engineered Elasticsearch database schemas, nested mappings, and complex DSL/KQL queries to support scalable data search and aggregation – directly applicable to SQL schema design.
- Built **Threat Insights**, an analytics module with real-time KPI dashboards, geospatial visualizations, and dynamic filtering, serving live production traffic.
- Integrated Cube.js semantic models and pre-aggregations to optimize analytical query performance, reducing response latency.
- Collaborated in Agile sprint cycles – participated in code reviews, sprint planning, and cross-team coordination with frontend and data teams.

MERN Stack Developer Intern

May 2024 – Jul 2024

SmartInterns

Remote

- Developed the **BookStore** platform using React.js, Node.js, and **SQL**, improving page load performance by 30% through query optimization and efficient API design.
- Designed relational database schemas in SQL, wrote optimized queries, and implemented JWT-based authentication to improve application security and reliability.
- Built and documented RESTful API endpoints consumed by the frontend, following REST conventions and best practices.

PROJECTS

NxtWatch | *React.js, Node.js, Express.js, REST APIs, JWT*

2024

- Built a full-stack video streaming platform with client-side routing, reusable component architecture, and centralized state management – demonstrating MVC-like separation of concerns applicable to Spring Boot.
- Developed backend REST API endpoints using Express.js handling authentication, video data retrieval, and user-specific saved content.
- Implemented JWT-based authentication workflows, session management, and secured API routes.

EDUCATION

Bachelor of Technology in Computer Science

Nov 2021 – Apr 2025

Seshadri Rao Gudlavalluru Engineering College

Gudlavalluru, India

Board of Intermediate Education

Jul 2019 – Apr 2021

Sri Chaitanya Junior College

Machilipatnam, India

CERTIFICATIONS

NxtWave: Certified in HTML5, CSS3, JavaScript, Node.js, SQL, React.js, Git & GitHub
